"一舟股份"智慧建筑•万物互联 ----
2019 年智慧建筑高质量发展论坛

"SHIP" Smart Building • Internet of Everything" ——
Smart Building High Quality Development Forum 2019

围绕智慧建筑发展的主线，基于物联网（IoT）技术在智慧建筑中的应用，从数据采集到平台应用开发，全方位介绍当前物联网技术的发展模式、应用场景，展示了建筑内从基础设施到管理平台、从基本服务到全面感知服务的万物互联的建筑生态，真正体会国家倡导的互联网+带来的新体验。

主办单位：
中国勘察设计协会工程智能设计分会

协办单位：
华东建筑设计研究总院
北京《智能建筑与智慧城市》杂志社

支持单位：
上海电子商会智慧产业园区专委会
科大讯飞股份有限公司

Focusing on the main line of the development of smart buildings, based on the application of Internet of Things (IoT) technology in smart buildings, from data acquisition to platform application development, the forum introduces the development mode and application scenarios of the current Internet of Things technology in an all-round way, and shows the basics within the building. From the infrastructure to the management platform, from the basic services to the comprehensive sensing service, the building ecology of Internet of Everything truly appreciates the new experience of Internet + advocated by the state.

Bluetooth®

蓝牙建构智能家居与楼宇新应用

Develop New Application for Smart Home & Smart Building by Using Bluetooth

二十多年来，*Bluetooth*® 蓝牙社区以实践证明了无线连接的价值。从无线音频传输，穿戴式装置，定位服务到自动化解决方案持续满足消费者和不同产业的需求。正因蓝牙社区的倾力投入和持续努力，蓝牙技术才能在智能家居和智能楼宇等新兴市场发挥重要作用，市场领导者也都将蓝牙 mesh 网络连接功能整合到照明，住家和建筑解决方案中。蓝牙定位服务的最新进展，包括今年一月底全新寻向功能（Direction Finding）的推出，也进一步巩固了蓝牙在新兴垂直应用领域中的地位。

主办单位：
蓝牙技术联盟

In the past 20 years, Bluetooth has proven the value of wireless connection, from wireless voice transmission, wearable device, GPS service to automation total solutions. Bluetooth has been satisfying the market demand of end-users and the industry. With Bluetooth's innovation on new technologies for smart home and smart building, market leaders have integrated Bluetooth Mesh Networking into lighting, residential and building solutions. The implementation of "Direction Finding" is the latest progress of Bluetooth which makes it one step further to strengthen its position in the application of new vertical application field.

CSHIA 华东高峰论坛：2019 全屋智能与智慧地产专场
CSHIA East China Summit ——
Complete Smart Home and Smart Real Estate 2019

AI、IoT、边缘计算等技术不断革新，全面赋能智能家居行业，住宅是智能设备的载体，地产又是住宅的载体。全屋智能以更加丰富的组合搭配和多样定制化场景，不断满足用户的需求。地产商的角色从开发商向生活运营商转变，地产商有能力将全屋智能与智慧社区无缝打通，实现用户的 User ID 统一。随着智慧地产需求的爆发，以及国内"楼盘精装化"政策的逐步落地，全屋智能已经开始落地海量项目。全屋智能与智慧地产之间的结合会激起怎样的火花，全屋智能 SaaS 平台如何与地产商之间的商业突破将何去何从？这些都是业内关注的热点。
CSHIA 华东高峰论坛：2019 全屋智能与智慧地产专场，将针对全屋智能与智慧地产延伸出的一系列问题，届时将邀请多位业内专业级人士现场解读，对全屋智能与智慧地产的融合模式进行精彩分享，共同交流全屋智能与智慧地产的发展道路。

主办单位：
中国智能家居产业联盟

AI, IoT, edge computing and other technologies continue to innovate, and empowering the smart home industry, smart devices is carried by residential homes, while residential homes is carried by real estate. The total smart home solution constantly meets the users' needs with a richer combination and a wider selection of customized scenes. The role of real estate developers has evolving to becoming a total home operators. Real estate developers is getting more capable of integrating smart homes and smart communities in achieving integrated single User IDs. With a focus on smart home intelligence and smart real estate, the forum will bring up a series of questions for the two topics. Professionals from the industry are invited to the forum interpreting the integration of smart home intelligence and smart real estate, as well as to discuss the development path of them.

智领办公黑科技—物联网时代下的智慧办公体验
Shanghai International Smart Office Space Management Conference - IoT Technologies Enable Smart Office Experience

随着 5G 时代来临，物联网应用加速渗透到生活的方方面面。人工智能、大数据、云计算等技术的崛起，也给办公空间带来变革的契机。通行管理、空间管理、能耗管理、智慧安防、智能环境控制、智能视频会议系统及智能化办公设备的应用，不仅提高工作效率，增强员工体验，更是减低了行政人力成本、提高办公生产力，还将降低整体能耗，实现低碳办公！本论坛旨在向行业展示**"什么是智慧办公"**和**"为什么需要智慧办公"**两大主题。

主办单位：
上海国际智慧办公展览会

知行晓政

Revolting into the 5G era, the application of IoT is penetrating into every aspect of life. The rise of technology such as artificial intelligence, big data, cloud computing is also bringing in great opportunities for office space. The management of access control, space management, energy management, smart security, intelligent environment control, intelligent video conferencing system and smart office equipment does not only improve work efficiency, enhance employee experience, it also reduces administrative labor costs and improve office productivity. Besides, it reduces overall energy consumption and achieve low-carbon office! Industry experts and experienced users will be invited to share two main topics, "what is smart office?" and "why do we need smart office?"

CAICT 泰尔终端实验室
China Telecommunication Technology Labs-Terminals

In 2019, with the rapid development of new technologies such as ICT, AIOT, and edge computing, smart technology has becoming more and more relevant to our lives and work. What changes will happen when smart applications extend to the real estate industry? The 5G era is approaching. How does the technology-driven IoT fall into the real estate field? How to provide a comfortable new experience in human living?

China Academy of Information and Communications Technology- CTTL-Terminals together with SSHT&SIBT, invites top industry partners from domestic real estate, home appliances, lifestyle services, construction, research institutions, etc. to exchange ideas on how to use artificial intelligence, big data, cloud resources and the IoT platforms, the intelligentization of real estate ecology from community, parks, buildings to homes, and demonstration of the latest smart real estate project cases. At the same time, hot topics such as standards and innovation models will be discussed in exploring new technologies and new trends of smart homes and smart communities. The conference is expected to attract more than 100 smart home engineering companies, integrators, industry experts, architectural design institutes, home appliance manufacturers and industry players.

Organiser :

China Academy of Information Communications Technology Department of Strategic Planning & Research of CTTL-Terminals

No Wires. No Batteries. No Limits.

EnOcean 无线无源标准：
为智慧建筑带来物联网解决方案

**EnOcean Energy Harvesting Wireless Standard:
Bringing IoT into Buildings**

普通人一天 90%的时间都在室内，并且建筑的日常运行成本占其生命周期总成本的 70%。然而，在建筑的使用上，我们并没有做到尽可能的高效。统计数据显示，商用建筑只有 66%的面积真正被使用；另外，建筑用电占全社会用电总量的 42%，但其中 50%的电力都被浪费了。此次 EnOcean 论坛，将为楼宇领域的专业人士介绍基于 EnOcean 能量采集无线标准的解决方案，如何在以最低的规划安装成本，让智慧建筑及智能家居更加舒适、智能，同时降低运行能耗与成本。

主办单位：
EnOcean 联盟

Despite the growing demands for intelligent buildings, many are not build nor used as efficiently as they might, which is important considering we spend 90% of our time indoors, and operations account for 70% of a building's total cost over its life. Moreover, only 66% of commercial space is actually being used, and while buildings account for 42% of all energy use, up to 50% of that energy is wasted. At the Forum, EnOcean Alliance, along with its members and partners, will present applications for maintenance-free wireless sensor solutions for building digitalization and smart homes based on the EnOcean wireless standard (ISO/IEC 14543-3-1X).

Organiser :
EnOcean Alliance

智能家居涉及的环节、细分领域正变得越来越多，对智能家居设计、系统集成、安装售后、一站式解决方案等服务的需求也日益明显。系统集成，其存在的价值在于"集成"，集成多厂商的产品、信息和服务等，并借此产生价值增值。系统集成商可提供的许多服务，特别是综合性服务，往往是单一产品的生产商不能提供的。在这样的大趋势下，国内的系统集成商迎来前所未有的机遇。

The demand for smart home design, system integrators, after-sales services and one-stop solutions are increasing due to the development of smart home fields in recent years. "Integration" is the core of system integrators, integrating and consolidating information, products and services from various vendors as well we creating extra values. While system integrated manufacturers could offer integrated services which makes it more outstanding than other single-product manufacturers, system integrators in China may take this huge opportunities to develop in the industry.

Zigbee --- 天生互联互通，助力智能生活
Zigbee --- Interoperability Enables Smart Life

Zigbee 凭借其成熟领先的技术，今天已在全球智能家居无线传感网络所使用的芯片中占到 1/3 强，在中国智能家居市场的组网连接技术中也占据了主流地位。Zigbee 的互操作性更是赋予了消费者、厂商和平台生态圈更多的选择。本次论坛应用和技术并重，不仅有 Zigbee 在产品应用和架构搭建的实用经验分享，还从更高的角度对各种无线技术之间的关系和共存进行了有益的思考，一定会对您有所启发。

主办单位：
Zigbee 联盟中国成员组

Zigbee is a mature and advanced open standard. Today, Zigbee makes up more than one-third of the smart home Wireless Sensor Network (WSN) chipset market, and has also become a leading IoT connectivity technology for the smart home networks in China. Its interoperability renders more choices for consumers, manufacturers and also ecosystems. The forum features on both application and technology. Speakers will not only share experiences on Zigbee implementation on products and smart home architecture, but also the relation and co-existence of different wireless communication protocols. The audience will sure get some valuable insights.

5G + ZETA，宽窄结合，赋能智慧建筑

5G + ZETA —— Combining Wideband and Narrowband, Empowering Smart Buildings

ZETA Alliance

本次 ZETA 智慧建筑论坛将探讨超窄带技术 ZETA 结合 5G 在智慧建筑中的应用。

演讲企业代表嘉宾将结合行业现状，和观众共同探讨 ZETA 如何赋能，从底层芯片、通信设施设备到传感器设备再到软件平台，到最终形成完整智慧建筑解决方案，从而实现物业设备设施，办公环境，资产管理，能耗等更安全、高效的管理。

主办单位：
ZETA 联盟

The forum will explore the application of ultra-narrowband technology ZETA combining with 5G in intelligent buildings.

Representatives from different companies will discuss how ZETA empowers, from the underlying chip, communication facilities and equipment, sensor equipment, software platform, to the final formation of a complete smart building solution, thus achieving safer and more efficient management for the property equipment facilities, office environment, asset management, energy consumption and more.

Organiser :

ZETA Alliance

13:30 – 14:00	**打破 LPWA 盈利难题：ZETA AIoT & Soft IoT 芯片及解决方案** **周晋，**ZETA 联盟, ZETA 联盟生态总监 **Probability Breakthrough: ZETA AIoT & Soft IoT Chip and Solution** **Zhou Jin**, ZETA Alliance Ecology Director, ZETA Alliance
14:00 – 14:30	**云网融合** **钟鸣，**均瑶科创, 总经理 **Cloud Network Integration** **Zhong Ming ,** General Manager, Junyao Technology
14:30 – 15:00	**深化大共享** **张亮，**中国铁塔上海分公司, 行业拓展部总监 **A Deeper Look on Resources Sharing** **Zhang Liang,** Director of Industry Development, China Tower
15:00 – 15:30	**智慧建筑时代下的高效运作管理** **许谆，**上海介谷科技(浦江物业), COO **Efficient Operation Management of Intelligent Building** **Xu Zhun,** COO, Fourthwall Technology
15:30 – 16:00	**智慧物联提升空间价值** **曾尔阳，**深圳微筑科技, CEO **Smart IoT Enhances Value of Space** **Zeng Eryang,** CEO**,** Webuilding Technology
16:00 – 16:30	**ZETA 及 ZETA 联盟** **颜小杰，**厦门纵行信息科技, 副总经理 **ZETA and the ZETA Alliance** **Yan Xiaojie,** Deputy General Manager, ZiFiSense
